

MEETING REPORT

Team Name: Group 13 / Library Management System

Date of Meeting: 04/05/2026

Start Time: 12:00

End Time: 12:30

Meeting Location: Epoka University

Moderator: Sara Mjeshtri

Recorder: Sara Mjeshtri

Other Members Present: Jorida Lilollari, Klea Cela, Sibora Xhaferllari, Kristi Saliasi, Jasmina Durmishi, Arion Kanani

Members Absent: None

Topics Discussed:

During the meeting, the team reviewed the diagrams and system models developed so far for the Library Management System project. The discussion focused on preparing for the weekly presentation session, where each member will individually present one system requirement together with its related diagrams and documentation.

The team agreed that each presentation should include the requirement description, the corresponding Use Case Table, Activity Diagram, Sequence Diagram, and Collaboration Diagram. The purpose of these presentations is to evaluate the consistency and completeness of the system analysis and design models created during previous weeks.

In addition, the team discussed the collective presentation of the main system diagrams. As a group, members will briefly present the overall Use Case Diagram, Class Diagram, Entity Relationship Diagram (ERD), State Diagrams, and BPMN diagrams to demonstrate the full structure and workflow of the Library Management System.

Decisions Made:

Each member will individually present:

- One system requirement
- Its Use Case Table
- Its Activity Diagram
- Its Sequence Diagram
- Its Collaboration Diagram

The team will also prepare a short group presentation for:

- Use Case Diagram
- Class Diagram
- ERD
- State Diagrams
- BPMN Diagrams

All diagrams must be reviewed before the presentation to ensure consistency, correctness, and proper alignment between system models.

Tasks Assigned:

Each member will review the particular tasks from the beginning of the project until now to make sure everything is in the right place.

Time, Place, and Agenda for Next Meeting:

11/05/2026 – Epoka University
